

ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

Product

Refreshing Towel - Scented

Raw Material

Liquid:

Aqua
Propylene Glycol
PEG-40 Hydrogenated Castor Oil
Parfum
Benzyl Alcohol
Methylchloroisothiazolinone
Methylisothiazolinon
Citric Acid

Towel:

Krepp paper

Laminate:

Kraft
Pe
Alu
Sorlyn

Packaging

The inner packaging is made of PE, PP or paper/board.

The outer packaging of unbleached, corrugated board

Field Of Application

Product to clean and refresh skin.
No specific precautions are applicable.

No specific precautions are applicable EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Environmental Aspects

Product

These products are approved for use in applications with direct skin contact according to relevant chapters / paragraphs in European Directives EC/76/768 concerning cosmetic products.

Packaging

Polyethylene and polypropylene is manufactured from mineral oil or natural gas. The polymer simply consists of carbon and hydrogen.

The corrugated board is to a large extent made out of recycled fibres and unbleached.

Product Safety

- Substances, which are dangerous to the environment, as classified in Directive 67/548/EC, do not exceed the trace levels of 0,1%.
- The packaging complies with the European Packaging Directive 94/62/EEC. The sum of lead, cadmium, mercury and hexavalent chromium is <100 ppm.
- Duni manufacturing units are certified according to the international quality system ISO 9001 and 9002. They have also implemented or will implement the environmental management system ISO 14001.

Management of Used Products

Energy Recovery

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

Recycling

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

Validity

This is a copy of a document issued 2012-08-24. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB, Environmental Affairs.
